JOHNS HOPKINS SUMMER PROGRAMS

The Johns Hopkins Summer Program offers many different types of credit and non-credit courses to Hopkins undergraduates, visiting college students, and qualified high school learners. The Krieger School of Arts and Sciences and the Whiting School of Engineering sponsor summer session courses, providing identical academic rigor as that found in the university’s fall and spring terms. In addition to earning college credit, students experience academic life at Hopkins while living on campus and engaging in a wide variety of academic and social activities.
