

DEPARTMENTS, PROGRAM REQUIREMENTS, AND COURSES

Course Identification

Courses listed in the catalogue are those the departments plan to offer, however, not every course is available during a given academic year. Necessarily, some courses will be canceled and other courses scheduled. The schedules of graduate and undergraduate courses for a given term are published before the end of the preceding term. In the course listings that follow, the credits shown are for one semester only. Credit hours are not assigned to graduate level courses in the School of Arts and Sciences; many departments instead indicate the hours of class time per week.

Course numbers are comprised of:

- a two-character code, identifying the school
- a three-digit code, identifying the department or program;
- a three-digit course number, with the first digit indicating level.
- Frequently, a course number will be followed by a code letter that identifies an area that is for purposes of the distribution requirements.
