HISTORY OF SCIENCE AND TECHNOLOGY, PHD

The graduate program in the history of science and technology leads to the Ph.D. degree. The object of the Ph.D. program is to provide the rigorous training necessary for a scholarly career in teaching and research; consequently, the focus of the student’s activity will be the research seminars of the department. Faculty from the Institute of the History of Medicine in the School of Medicine also participate in the program.

Facilities

The Eisenhower Library and the Welch Medical Library contain about two million volumes, including the special collections of the Institute of the History of Medicine in Baltimore. These research facilities are supplemented by the rare book holdings at Evergreen House, the Pratt Library, and the Peabody Library.

Other important research collections are available to students. In Philadelphia, collections include the Science History Institute, the American Philosophical Society, and the Academy of Natural Sciences. The Hagley Museum and Library’s collections in the history of American science and technology are within easy distance of campus, as are the incomparable holdings of the Smithsonian Institution, the Library of Congress, the National Library of Medicine, and other governmental agencies in Washington, D.C.

Financial Aid

The department has several graduate fellowships and teaching assistantships. Students may also be eligible for federal financial support through the National Science Foundation. Information on these and other fellowships can be obtained through the fellowship advisor at the student’s college, or from the Fellowship Office of the National Academy of Sciences, National Research Council, Washington, D.C. 20025. In the recent past, doctoral candidates have also won support for their research in the United States and abroad through such sources as the Smithsonian Fellowships, the Fulbright-Hays grants, the Spencer Foundation, Consortium for History of Science, Technology and Medicine, Max Planck Institute for the History of Science, and the Deutscher Akademischer Austauschdienst (DAAD) Fellowship.

Admission Requirements

Application deadline is January 15. Applicants to the Ph.D. program in the History of Science and Technology should upload and submit all required application materials and supporting documents through the online application system. For additional information on admission requirements, please visit our admissions website (https://host.jhu.edu/graduate/admissions/).
