

CAREY BUSINESS SCHOOL

Our Mission

The Johns Hopkins Carey Business School supports business knowledge development and education through our own initiatives, innovations, and collaborative programs across the Johns Hopkins University. We create and share knowledge that shapes business practices while educating business leaders who will grow economies and societies, and are exemplary citizens.

Introduction

The Johns Hopkins University

Established in 1876, the Johns Hopkins University was the first American university dedicated to advanced study and scientific research.

Today, Johns Hopkins continues as a leader in teaching, research, and community service and is the single largest university recipient of research and development funds from the federal government. There are 10 divisions within the university.

The Johns Hopkins Carey Business School's faculty, administrative staff, and many of its programs are located in Baltimore, Maryland. Programs are also offered at the Washington, D.C. campus, as well as online.

The Krieger School of Arts and Sciences and the G.W.C. Whiting School of Engineering are based on the Homewood campus in north Baltimore. The School of Education houses its central administration and some programs in the Homewood campus' Education Building. Additional campus facilities are in Columbia and Montgomery County, Maryland. The School of Medicine, Bloomberg School of Public Health, and School of Nursing occupy a campus in East Baltimore, along with the Johns Hopkins Hospital, a separate but closely allied institution. The Peabody Institute, one of the nation's leading professional schools of music, is also located in Baltimore; the Paul H. Nitze School of Advanced International Studies is in Washington, D.C.; and the Applied Physics Laboratory is in Laurel, Maryland. International academic campuses are located in Nanjing, China; Bologna, Italy; and Singapore.

The Johns Hopkins Carey Business School

The Johns Hopkins Carey Business School brings to the field of business education the intellectual rigor and commitment to excellence that are the hallmarks of the Johns Hopkins University. True to the traditions of the university of which it is a part, the school's approach is original and transformative. It offers a uniquely humanistic and multidisciplinary model of business education and research, tapping the rich resources of faculty and programs from the other great divisions of the university—the Schools of Medicine, Public Health, Nursing, Engineering, Advanced International Studies, Arts and Sciences, and Education.

Nimble, engaging, forward-thinking, and responsive, Carey Business School graduates are not just business leaders but global citizens who understand and respect the interconnectedness of business and society and the potential of innovative thinking and sustainable strategies to change lives, communities—the world—for the better.

Carey Business School students gain a sound education in business functions and fundamentals, and a deep understanding in one or more key sectors critical to economic growth and job creation: health care management, financial businesses, real estate and infrastructure, and risk management.

Through programs that combine extensive theory with a wealth of work-world experience, Carey students learn from nationally recognized researchers and leaders in their fields. Faculty are a dynamic blend of academic experts and practitioners drawn from leading corporate, government, and nonprofit institutions, such as Bank of America, Deloitte & Touche LLP, Fannie Mae, NASDAQ, Northrop Grumman, the U.S. Treasury, Wells Fargo, and the World Wildlife Fund. Carey graduates represent a diverse mix of prominent national and international employers, including Stanley Black & Decker, the U.S. State Department, Ernst & Young, IBM, and NASA.

By linking this focused business education to urgent social issues—e.g., health, security, infrastructure, education, environmental sustainability, population, and poverty—the Johns Hopkins Carey Business School endeavors to improve lives on a global scale, by producing leaders to tackle not only today's most difficult challenges, but those of tomorrow as well.

Curriculum

Current academic programs include the Johns Hopkins Global MBA (full-time), and the Flexible MBA (part-time), designed to accommodate the needs of working professionals.

Also offered are a wide range of dual MBA programs (in collaboration with other Johns Hopkins schools) in areas such as government, biotechnology, medicine, public health, and design leadership (offered in collaboration with Maryland Institute College of Art). Specialized Master of Science degree programs are offered in business analytics and risk management, finance, health care management, information systems, marketing, and real estate and infrastructure, as well as a variety of graduate certificate programs, and non-credit Executive Education courses.
