In 1916, Johns Hopkins added business and engineering courses for part-time students. Energetic individuals such as Gantt fostered the growth of the new field of business administration and the concept of “working smarter” to enhance efficiency and profits. Following World War II, the Johns Hopkins program produced more CPAs than any other school in Maryland.

Over time, the management science program became the first graduate-level business degree at Johns Hopkins with a focus on applying new findings in quantitative analysis and general systems theory. In 1991, the school developed new programs to address a business landscape incorporating transformed by technological innovation, emerging economies, and escalating politics, including specialized Master of Science programs and Master of Business Administration degree programs.

On December 4, 2006, Johns Hopkins trustees, in response to a gift from businessman William Polk Carey, voted to establish a new business school dedicated to producing innovative leaders with broad, interdisciplinary knowledge. The school was named after Carey’s great-great-great-grandfather, James Carey of Loudon, a successful Baltimore merchant during the 18th and 19th centuries. On January 1, 2007, the new Carey Business School opened its doors for the first time.

Carey’s $50 million donation, paired with $50 million to be raised by the university, was responsible for launching the Carey Business School. This was the largest gift ever in support of business education at Johns Hopkins.

Curriculum
Current academic programs include the Johns Hopkins MBA (full-time), and the Flexible MBA (part-time), designed to accommodate the needs of working professionals.

Also offered are a wide range of dual MBA programs (in collaboration with other Johns Hopkins schools) in areas such as government, biotechnology, medicine, public health, and design leadership (offered in collaboration with Maryland Institute College of Art). Specialized Master of Science degree programs are offered in business analytics and risk management, finance, health care management, information systems, marketing, and real estate and infrastructure, as well as a variety of graduate certificate programs, and non-credit Executive Education courses.
