MBA/MPH DUAL DEGREE

MBA/MPH Dual Degree
This unique 23-month full-time program of study will enable students to integrate the philosophies, functions, and competencies of the seemingly disparate fields of public health and business. Students in this program will acquire knowledge and skills in the principles of population-based health as well as finance and management, which will enable them to be effective managers and leaders in health-related agencies and organizations. Graduates will be able to assess the public health needs of a defined population; develop, analyze, and implement targeted health policies and programs; lead the process of change within their organization and community; manage health care organizations to achieve identified goals; and communicate messages to targeted audiences.

Admission Requirements
Applications for the combined degree program must be obtained from and submitted to the Johns Hopkins Bloomberg School of Public Health and will be reviewed by the admissions committees of both the Johns Hopkins Bloomberg School of Public Health and the Carey Business School. For more information, please visit jhsp.h.edu/academics/degree-programs/master-of-public-health/academic-overview/combined-degrees-and-programs.html (http://www.jhsp.h.edu/academics/degree-programs/master-of-public-health/academic-overview/combined-degrees-and-programs.html).

Program Requirements
The program requires 127 credits (MPH and MBA based on the School of Public Health credit system). Dual degree recipients receive both diplomas upon completion of both programs. Students will need to complete the Foundational courses associated with the full-time MBA program (26 Carey credits, 39 Bloomberg credits) as well as 10 Carey elective credits (15 Bloomberg credits). Carey Business will accept 18 Carey credits from MPH coursework.

Dual-degree MPH/MBA students starting the program Fall 2024 will not be required to complete the Carey full-time MBA Summer Practical Experience. Students should contact the Bloomberg School of Public Health regarding Practicum Experiences.
