ACADEMIC REGULATIONS

Academic Regulations
The following academic regulations are the general requirements governing study in the Engineering for Professionals program at Johns Hopkins University. Students are expected to be familiar with these requirements and with the specific regulations set forth in the sections relevant to particular programs of study.

Requirements for degree and certificate programs described in this catalog are subject to change. When this occurs, students may fulfill any set of requirements in force during their time in the program.

Note that only graduates who complete degree requirements prior to the ceremony date will be allowed to participate in Commencement activities.

Advisors and Degree Audit
Once an offer of admission is accepted, students are assigned an advisor. Students are strongly encouraged to contact their advisor prior to registration. Logging of course and program completion as well as viewing of approvals and exceptions approved by a student’s advisor can be tracked through the degree audit system (https://ep.jhu.edu/student-services/new-student-orientation/degree-audit/) viewable through SIS (https://sis.jhu.edu/sswfp/).

Academic Standing/Code of Conduct
The university reserves the right to exclude, at any time, a student whose academic standing or general conduct is deemed unsatisfactory. JHU students must abide by the JHU Code of Conduct (http://e-catalog.jhu.edu/university-wide-policies-information/rights-privileges-responsibilities/student-conduct-code/).

Master’s Degree Candidates
Only one C-range grade (C+, C, or C–) can count toward the master’s degree.

Post-Master’s Certificate or Graduate Certificate
No grade below B– can be counted toward a graduate certificate or post-master’s certificate. The below policy for probation and dismissal will apply.

Special Students
The below policy for probation and dismissal applies to Special Students.

ACADEMIC PROBATION
Any student receiving either one grade of D+, D, or F or two grades of C(+/–) during their program of study will be placed on academic probation. Students placed on probation are permitted to retake any graduate course in which they have earned a grade of C+ or below. Students may attempt no more than two retakes during their program of study at JHEP; this may be on the same course or two different courses. If a grade of B– or above is earned in the repeated course, the probationary status will be removed. Please note that not all courses are offered every term. If an additional grade below B– is received before the course is repeated and successfully completed, the student will be dismissed. Dismissal appeals may be submitted to the JHEP Student Services Office.

There are circumstances described below where students will not be placed on probation but will be immediately dismissed from the program.

ACADEMIC DISMISSAL
The following are causes for dismissal from the program:

• Students already on probation receiving an additional grade of C+ or below
• Students receiving a grade of C(+/–) and a subsequent D+, D, or F
• Students receiving three grades of C(+/–)
• Students receiving two grades of D+, D, or F
• Students receiving grades of D+, D, or F and C(+/–) in the same term

Applicants who have been dismissed or suspended by any college or university, including Johns Hopkins, within the past four years are not eligible for admission.

Second Master’s Degree
After receiving a master’s degree from the programs, students may continue their graduate education in a second field if the appropriate prerequisites of the new program are fulfilled.

To receive a second master’s degree, all requirements for the second program must be satisfied. If the following conditions are met, up to two courses taken as part of the first degree may be applied toward requirements of the second:

• The course(s) must satisfy the requirements of the second degree.
• The student’s advisor must approve the course(s) as appropriate to the plan of study.
• The course(s) must fall within the five-year limit for the second degree; i.e., completion of the second degree must fall within five years from the date of the first class counted toward that degree.

Time Limitation
To be counted toward the degree or certificate, all coursework in the program must be completed within a specified period, which begins with the start of the first course applied to the student’s program:

• Master’s degree: five years
• Post-master’s certificate: three years
• Graduate certificate: three years

If necessary, a request for an extension, stating the extenuating circumstances, should be submitted in writing to the relevant program coordinator (https://ep.jhu.edu/student-services/new-student-orientation/program-coordinators-and-advisors/) at least one semester before the student otherwise would be expected to graduate.

Course Revalidation
Courses older than five years at the time of a student’s graduation term cannot be applied toward a student’s master’s degree program requirements. In exceptional cases, credits may be eligible for revalidation review.

Current Engineering for Professionals students may request a course revalidation review for a maximum of two courses or 20% of the total master’s degree coursework requirement. These may be JHU courses or those that received transfer credit at EP. Courses completed more than seven years from the term of the revalidation request cannot be considered.

Revalidation Request Process

Academic Regulations
Students must submit a written request to their Program Coordinator (https://ep.jhu.edu/student-services/new-student-orientation/program-coordinators-and-advisors/). The request should include the original course syllabus and description. If this is not available, students can substitute a letter or email from the course instructor certifying that no significant change has been made to the course content since the date of student's completion. The revalidation request requires approval from the student's Program Chair.

If the revalidation request is successful, the course will be valid from the date of the revalidation approval.

If the revalidation is not successful, the course will no longer count toward the student's degree requirements. The student will be responsible for completing coursework to replace the expired credits.

**Leave of Absence**

Students who do not plan to enroll in classes for a period of more than one year must notify the Johns Hopkins Engineering for Professionals admissions office in writing and request a leave of absence for a specified period of time. The appropriate program chair will make the decision to approve or not approve the request.

Students who are granted a leave of absence must resume their studies at the end of the allotted leave time. If warranted, the time permitted to complete program requirements will be extended by the length of time granted for the leave of absence. Students who do not resume their studies after a leave of absence has expired, or who have not enrolled for more than one year without having requested a leave of absence, will assume the status of a student who has withdrawn from the program. Such students must reapply and are subject to the admission requirements in force at the date of the new application. Acceptance is not guaranteed even for students previously admitted. Courses taken prior to the interruption of studies will not count toward requirements if they are not completed within the time allowed for degree completion.

**Transferability of Courses**

Courses successfully completed through Johns Hopkins Engineering for Professionals may be transferred to other institutions. Transferability is solely at the discretion of the accepting institution.

**Transfer Courses**

Requests to transfer courses from another institution toward the master's degree and certificate will be considered on an individual basis. A maximum of two Engineering for Professionals master's degree course requirements and one Engineering for Professionals certificate course requirement may be waived with documentation and approval of outside coursework. Any course considered for transfer must apply to the time limitation of the degree or certificate. All coursework in the program must be completed within a specified period, which begins with the start of the first course in the student's program; this includes any courses accepted for transfer. Transfer courses must be graduate-level, credit-bearing from an accredited institution, may not have applied to a degree at an institution outside of JHU, and directly applicable to the student's program at Johns Hopkins Engineering for Professionals. In very rare circumstances, where a program has established a non-credit to credit pathway, a student could receive credit for specific alternative learning experiences.

For students who earned an undergraduate degree outside of the Whiting School of Engineering or the Krieger School of Arts and Sciences, coursework completed before the undergraduate degree was conferred can only be applied to a Whiting School of Engineering master's degree if evidence is provided by the degree-granting institution that the course was not applied to the undergraduate degree, and with advisor approval.

Continuing Education Unit (CEU) courses are not eligible for transfer. Requests should be submitted in writing to the student's program coordinator (https://ep.jhu.edu/student-services/new-student-orientation/program-coordinators-and-advisors/). An official transcript and course description for the course to be transferred are both required. Requests to transfer courses cannot be processed if the transcript is not official. The fee for transfer is $460 per course.

After being accepted into a Johns Hopkins Engineering for Professionals program of study, students may not take classes at another institution for transfer back to their Johns Hopkins Engineering for Professionals program. Courses successfully completed at Johns Hopkins Engineering for Professionals may be accepted for transfer credit at other institutions, but such transferability is solely at the discretion of the accepting institution.

**Whiting School of Engineering Policy on Double-Counting Courses**

The Whiting School of Engineering has established the following policies on double-counting coursework for all students in the full-time (Homewood) programs and the part-time Engineering for Professionals programs. If an individual program adopts double-counting policies more strict than these, the program's policies override the school-wide policies. Students are encouraged to refer to individual program policies.

With bachelor's/master's and master's/master's double-counting, across any number of degree programs, a student can reduce the number of master's courses required by up to two (with approval of the programs involved). Beyond that, the remaining courses must be unique to the degree program. With a ten-course master's degree program, for example, eight of those courses must be unique to the program and not applied to a different degree at any level. A student can double-count any number of undergraduate courses to the various master's degrees (but at most, two to each master's program) and he/she can double-count the same course across any number of degrees pursued (again, with the approval of the programs involved).

**Bachelor's–Master's Double Counting CourseWork Applied to a Bachelor's Degree**

Students either in a Whiting School of Engineering combined (bachelor's/master's) program or seeking a Whiting School of Engineering master's degree after having earned a Whiting School of Engineering or Krieger School of Arts and Sciences bachelor's degree may double-count two courses (graduate-level) to both programs with the permission of the master's faculty advisor. Whiting School of Engineering master's degree candidates may not double-count courses applied to a bachelor's degree earned at a different institution. Individual graduate programs reserve the right to enforce stricter policies.

**CourseWork Not Applied to a Bachelor's Degree**

For students who either are in a Whiting School of Engineering combined bachelor's/master's degree program or have already earned a Whiting School of Engineering or Krieger School of Arts and Sciences bachelor's degree and are seeking a Whiting School of Engineering master's degree, any graduate-level coursework (as defined by the Whiting School of Engineering graduate program) not applied to the undergraduate degree may be applied to the graduate degree, regardless of when that course was taken (i.e., before or after the undergraduate degree has been conferred) with the permission of the master's faculty advisor.
For students who earned an undergraduate degree outside of the Whiting School of Engineering or the Krieger School of Arts and Sciences, coursework completed before the undergraduate degree was conferred can only be applied to a Whiting School of Engineering master’s degree if evidence is provided by the degree-granting institution that the course was not applied to the undergraduate degree, and with advisor approval.

**Master’s–Master’s Double Counting CourseWork Applied to a Master’s Degree**

Students pursuing (1) a Whiting School of Engineering master’s and a master’s from any JHU school simultaneously or (2) a Whiting School of Engineering master’s after having earned a master’s from any JHU school may double-count either two semester-length courses or three quarter-length courses across two master’s programs as long as the courses are equivalent to the graduate-level or higher in the Whiting School of Engineering full-time graduate programs.

The student must receive approval from both master’s degree program faculty advisors if both sets of degree requirements will be completed at the same time. For a student to double-count coursework from two master’s degrees whose requirements are met at different times, the student must obtain only the approval of the faculty advisor in the program to be finished second. Individual graduate programs reserve the right to enforce stricter policies.

**Timing and Ramifications For Current Students**

This policy will be applied to all students entering a Whiting School of Engineering master’s program in fall 2007 and beyond. Any student who has entered a Whiting School of Engineering master’s program before then will be exempt from this policy and should follow the course arrangement made with his/her advisor, provided it is in compliance with departmental, school, and university requirements.

**Declaration of Double-Counted Course**

Whiting School of Engineering master’s students wishing to double-count courses must submit these courses to the Whiting School of Engineering master’s program for approval. If it is learned that a student has double-counted a course for the Whiting School of Engineering master’s degree without permission of the Whiting School of Engineering master’s program, this program reserves the right to revoke the degree.

**Graduation**

Note that only graduates who complete degree requirements prior to the ceremony date will be allowed to participate in Commencement activities.

Students who expect to receive a degree or certificate must submit an application for graduation. The graduation application should be submitted during the final term in which degree requirements will be completed. Instructions for completing the graduation application can be found by logging into SIS and clicking on the program of study.

Students who are planning to graduate should complete all coursework on time and should not request to receive the grade of I (incomplete) during their final semester.

Approximately two months after the semester begins, students who have submitted the application for graduation receive a preliminary letter stating that their names have been placed on the tentative graduation list for the semester in which they anticipate completing their degree requirements.

Commencement information is sent the first week in March. To receive their diplomas, students must pay all student accounts in full and resolve all outstanding charges of misconduct and violations of academic integrity. Students will receive an e-bill notification in the spring from Student Accounts. The e-bill will be sent to the student’s JHU e-mail account. For graduation fees, see the Tuition and Fees (https://ep.jhu.edu/admissions-and-aid/tuition-and-fees/). Diplomas will be sent to students who graduate in the summer or fall term at the end of their graduation term. Johns Hopkins University diplomas indicate the school (e.g., Whiting School of Engineering), degree, and major (e.g., Master of Science-Computer Science) without identifying the student’s focus area/track or course modality (eg. online).

**Honors**

Johns Hopkins Engineering for Professionals students will graduate with honors if they have earned an A+, A, or A– in all courses taken between admission and graduation from the degree program. Any other grade except a withdrawal or audit will disqualify students from receiving honors. The designation “Honors” will appear on student transcripts.

**Grading System**

The following grades are used for the courses:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+, A, A–</td>
<td>Excellent</td>
</tr>
<tr>
<td>B+, B, B–</td>
<td>Good</td>
</tr>
<tr>
<td>C+, C, C–, D+, D</td>
<td>Unsatisfactory</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
</tr>
<tr>
<td>W</td>
<td>Official Withdrawal</td>
</tr>
<tr>
<td>AU</td>
<td>Audit</td>
</tr>
</tbody>
</table>

1 Grade not assigned by instructors.

A grade of F indicates the student’s failure to complete or comprehend the coursework. A course for which an unsatisfactory grade (C+ through F) has been received may be retaken. The original grade is replaced with an R. If the failed course includes laboratory work, both the lecture and laboratory work must be retaken unless the instructor indicates otherwise. A grade of W is issued to those who have dropped the course after the refund period (the sixth class meeting for on-site courses, sixth week/module for online courses) but before the drop deadline.

The transcript is part of the student’s permanent record at the university. No grade may be changed except to correct an error, to replace an incomplete with a grade, or to replace a grade with an R.

The Whiting School assumes that students possess acceptable written command of the English language. It is proper for faculty to consider writing quality when assigning grades.

**Incompletes**

A grade of incomplete (I) is assigned when a student fails to complete a course on time for valid reasons, usually under circumstances beyond his or her control.

Conditions for resolving an incomplete are established by the instructor. A final grade must be submitted to the Registrar within four weeks after the start of the following term. A grade of F will be assigned if the incomplete work is not submitted by the deadline. For academic year 2020–2021, the dates by which final grades for incomplete work must be resolved are as follows:
Acceptable use of IT resources is use that
• is consistent with Johns Hopkins’ missions of education, research, service, and patient care and is legal, ethical, and honest;
• it must respect intellectual property, ownership of data, system security mechanisms, and individuals’ rights to privacy and freedom from intimidation, harassment, and annoyance;
• it must show consideration in the consumption and utilization of IT resources; and
• it must not jeopardize Johns Hopkins’ not-for-profit status.

Incidental personal use of IT resources is permitted if consistent with applicable Johns Hopkins University and divisional policy, and if such use is reasonable, is not excessive, and does not impair work performance or productivity.

Please visit it.jhu.edu (https://it.johnshopkins.edu/) for additional information on unacceptable use of IT resources.
