

ENVIRONMENTAL ENGINEERING, POST- MASTER'S CERTIFICATE

Admission Requirements

Applicants who have already completed a master's degree in a closely related technical discipline are eligible to apply for the Post-Master's Certificate in Environmental Engineering.

Program Requirements

Five courses must be completed within three years. At least three of the five courses must be taken within the Environmental Engineering program.

Only grades of B- or above can count toward the post-master's certificate. All course selections are subject to advisor approval.

Any deviation from this program, including transfer of courses and any other requisites specified in the student's admission letter, will not be approved by the program chair.
