FINANCIAL MATHEMATICS, MASTER OF SCIENCE IN ENGINEERING

The department offers an M.S.E. degree in Financial Mathematics. The structure of this program is summarized below. More detailed information about this program may be found on the department’s website.

Full-time students in this program are expected to attend courses for three semesters beginning in the fall semester, an internship after the spring semester of their first year, and return for a second fall semester.

Program Requirements

For departmental certification for this degree, the student must complete the following courses or approved substitute courses with program approval pursuing either the Area of Focus Track or Legacy Track:

Area of Focus Track
- Financial Mathematics Master’s Seminar
- Computing requirement (Financial Computing Workshop)
- Communication skills requirement (Communication Skills Practicum)
- Internship (typically done during summer after first year in residence)
- Complete training on the responsible and ethical conduct of research. Please see the WSE Policy on the Responsible Conduct of Research.
- Complete training on academic ethics.

Core Financial Mathematics Requirement

Core Applied Mathematics Requirement

EN.553.627 | Stochastic Processes and Applications to Finance | 4       |
EN.553.633 | Monte Carlo Methods                              | 4       |
EN.553.613 | Applied Statistics and Data Analysis             | 4       |
EN.553.639 | Time Series Analysis                             | 3       |
EN.553.661 | Optimization in Finance                         | 4       |

Electives

Select seven elective courses.

Total Credits 40

1 Please see department website for approved electives.
2 One course in Applied Mathematics and Statistics, one course in Financial Mathematics and four additional courses from the approved electives listing or with prior program approval.

For courses used toward the degree, all grades must be C or higher, at most two grades can be below a B-, and the overall average grade point average in these courses must be at least 3.0.

Legacy Track
- Financial Mathematics Master’s Seminar
- Computing requirement (Financial Computing Workshop)
- Communication skills requirement (Communication Skills Practicum)
- Internship (typically done during summer after first year in residence)
- Complete training on the responsible and ethical conduct of research. Please see WSE Policy on the Responsible Conduct of Research.
- Complete training on academic ethics.
