

# ACCOUNTING AND FINANCIAL MANAGEMENT, MINOR

The Accounting & Financial Management program offers Johns Hopkins Arts & Sciences, Engineering, and Peabody students a focused, quantitative minor that will prepare them more effectively for careers in small companies, major corporations, and consultancies as well as acceptance into graduate programs in accountancy and business.

The objective of the Minor in Accounting and Financial Management is to enable students in all disciplines to complement their major fields of study with academic training that will help them prepare for and compete within this expanding marketplace. The minor is not only relevant for students who plan to seek employment but critical for those who plan to attend graduate programs in accounting and business immediately after graduation. The Accounting and Financial Management Minor will help the CLE's graduates prepare for career opportunities in several fields that have high salaries and are predicted to grow substantially.

See the Undergraduate tab above for specific requirements for the minor.

## Program Requirements

- Four core courses: Introduction to Business, Financial Accounting, Professional Writing & Communication or Oral Presentations & Business Analytics
- Three upper-level courses; one course must be at the 400-level.

Code	Title	Credits
<b>Core Requirements</b>		
EN.660.105	Introduction to Business	4
EN.660.203	Financial Accounting	3
EN.661.110	Professional Writing and Communication	3
or EN.661.250	Oral Presentations	
EN.661.380	Business Analytics <sup>1</sup>	3
<b>Upper-Level Electives</b>		
Select three upper-level courses; one course must be at the 400-level <sup>2</sup>		9
AS.180.263	Corporate Finance	
EN.660.300	Managerial Finance	
EN.660.303	Managerial Accounting	
EN.660.414	Financial Statement Analysis	
Total Credits		22

<sup>1</sup> Business Analytics can be replaced by one intermediate/advanced calc-based statistics course or two elementary statistics courses.

<sup>2</sup> While the CLE currently offers only one 400-level course in this area, students occasionally take advanced classes at other universities.

Students are encouraged to fulfill the Business Analytics requirement with EN.661.380 Business Analytics, but will be allowed to substitute statistics course(s) by choosing one of the two options listed below. Students can substitute AP Statistics for Stat I, but not Stat II.

Option One: for students who wish to replace Business Analytics with Statistics:

Code	Title	Credits
Select one of the following:		4
EN.553.111	Statistical Analysis I	
AS.230.205	Introduction to Social Statistics	
AS.280.345	Public Health Biostatistics	
EN.553.112	Statistical Analysis II	4
Total Credits		8

Option Two: for students who wish to replace Business Analytics with Statistics:

Code	Title	Credits
Select one of the following:		3
EN.553.211	Probability and Statistics for the Life Sciences	
EN.553.310	Probability & Statistics for the Physical Sciences & Engineering	
EN.553.430	Introduction to Statistics	
EN.560.348	Probability & Statistics in Civil Engineering	
Total Credits		3

## Course and Grade Rules and Limitations

The Accounting & Financial Management minor requires a minimum of 22 credits.

For students whose first-semester grades are S/UCR/U under the covered grades policy in effect prior to Fall 2017, a maximum of one "S" course, taken after freshman fall semester (the covered grades semester), may be applied to the minor. For all other students who do not have a covered grades semester, a maximum of one "S" course may be applied to the minor, no matter when it was taken.

All courses applied to the A&FM minor must be completed with a grade of C- or above.
