The Department of Epidemiology is an academic department in the Johns Hopkins University Bloomberg School of Public Health and directs the Clinical Epidemiology Program in the School of Medicine. The department participates in required Epidemiology instruction for first-year students in the School of Medicine. In addition, elective opportunities, both formal courses and tutorials, are available. Interested students should consult the School of Public Health section of the catalog for information on course offerings and areas of research represented in the department.

A combined M.D.-Ph.D. Program in Epidemiology is available.

**Program Requirements**

**Other Courses and Elective Opportunities**

Research and Tutorials. (same as Epidemiology PH.340.840 Special Studies and Research Epidemiology, School of Public Health).

Students may undertake tutorials under the supervision of a member of the Department of Epidemiology faculty. These programs are individually planned and consist of reading in specific areas of epidemiologic and clinical interest or may comprise participation in research activities underway in the department.
