ADULT-GERONTOLOGICAL ACUTE CARE NURSE PRACTITIONER, DNP ADVANCED PRACTICE TRACK

This track prepares the student to utilize evidence-based guidelines while diagnosing and managing health problems of acutely and critically ill individuals across the adult lifespan. Adult-Gerontological Acute Care Nurse Practitioners work in acute and complex care settings such as critical care units, hospitalist or specialty services, and in other settings where patients can be physiologically unstable, technologically dependent, requiring frequent monitoring and intervention, and are highly vulnerable to complications.

The development of the curriculum is based on:

- The Criteria for Evaluation of Nurse Practitioner Programs (2016)
- The National Task Force on Quality Nurse Practitioner Education and other national advanced practice, specialty-focused standards and guidelines (AACN Scope and Standards Acute Care Nurse Practitioner Practice, American Association of Critical Care Nurses 2017)
- The Adult-Gerontology Acute Care and Primary Care Nurse Practitioner Competencies (AACN 2016)

Certification: Graduates of the Adult-Gerontological Acute Care Nurse Practitioner Track are eligible to apply for certification as an Adult-Gerontological Acute Care Nurse Practitioner from the American Association of Critical Care Nurses www.aacn.org/certification/get-certified (http://www.aacn.org/certification/get-certified/) or the American Nurses Credentialing Center www.nursingworld.org/our-certification (https://www.nursingworld.org/our-certifications/).
