

MBA/MPH WITH CHINA EUROPE INTERNATIONAL BUSINESS SCHOOL

About

The Bloomberg School and the China Europe International Business School (CEIBS) offer the Master's of Business Administration and Master of Public Health (<https://www.ceibs.edu/mba/ceibs-johns-hopkins/>) (MBA/MPH) dual degree program.

Students pursue complementary studies in public health and international business. They observe first-hand the opportunities and challenges in China's giant health care market, which is vital for future leaders in global health.

Graduates earn the MBA degree from CEIBS and the MPH degree from the Bloomberg School.

Students earn both degrees in 23 months, six months less than if each degree were sought separately. Training includes population-based health, strategic planning, health economics and more.

- Year 1: MBA coursework, CEIBS, Shanghai Campus in China
- Year 2: MPH coursework in the 11-month, full-time format (<https://www.jhsph.edu/academics/degree-programs/master-of-public-health/program-overview/full-time.html>) in Baltimore, Maryland, U.S.

How to Apply

Requirements and deadlines are the same as the full-time MPH program, however, applicants must apply to CEIBS (<http://www.ceibs.edu/mba/application/>) and the Bloomberg School (<https://publichealth.jhu.edu/offices-and-services/office-of-admissions-services/how-to-apply/>) separately. The application to the MPH program is processed through SOPHAS and applicants should take care to indicate the appropriate year they will begin the MPH program. The admissions committees of both schools review applications independently.

Applicants are required to take either the GRE (preferred) or the GMAT. IELTS and TOEFL scores are waived for students who meet the CEIBS English language requirement.

Meeting CEIBS's pre-MBA working experience requirement, together with the completion of one year MBA at CEIBS satisfies the health experience requirement of the MPH.
