### MPH/MBA

#### About

The MPH/MBA provides experienced professionals with the knowledge and skills to be successful leaders in health-related organizations.

Students pursue an integrated curriculum with both public health and business courses. They are trained in population-based health, strategic planning, health economics and more. The program requires 64 MPH credits and 63 MBA credits for a minimum of 127 total credits to graduate.

Students complete the dual degree program in nine terms (two years). Tuition per term is based on the full-time rate at the Bloomberg School.

#### How to Apply

Requirements ([https://e-catalogue.jhu.edu/public-health/departments/master-public-health/#requirementstext](https://e-catalogue.jhu.edu/public-health/departments/master-public-health/#requirementstext)) and deadlines are the same as the full-time MPH program. Please note: all MPH/MBA applicants must submit a GRE or GMAT score (including applicants who hold an advanced degree).

However, there are GMAT/GRE Waivers for select, qualified candidates (3 or more years of full-time post-graduate work experience at the time of the program start in July 2024 AND a minimum cumulative GPA of 3.0 in undergraduate coursework or an advanced degree or professional degree (i.e. earned master’s or doctorate). Meeting minimum eligibility does not guarantee a waiver and receiving a waiver does not guarantee admission.

- GRE: ETS code 3738
- GMAT: Submit scores electronically to BSPH using code KGB-3R-06

Applicants submit only one application for the MPH/MBA through the Bloomberg School. Applications are processed through SOPHAS, and the admissions committees of both school’s review applications independently.

#### Additional Course Requirements

While the dual degree program follows the same requirements as the full-time standalone MPH program ([https://e-catalogue.jhu.edu/public-health/departments/master-public-health/](https://e-catalogue.jhu.edu/public-health/departments/master-public-health/)), the following additional course requirements are required for MPH completion:

<table>
