

MD/PHD

About

In partnership with the Johns Hopkins School of Medicine (<http://www.hopkinsmedicine.org/som/>), the Bloomberg School offers students the opportunity to earn a Doctor of Medicine (MD) alongside a Doctor of Philosophy (PhD) (<http://e-catalog.jhu.edu/medicine/medical-students/md-phd-combined-degree/>) – a rigorous combination that prepares graduates for prestigious careers in academic medicine.

The long-lasting relationship between the School of Medicine and the Bloomberg School – both situated along the same city block here in Baltimore – fosters the ideal environment for this combined six or eight year program.

Students complete two years of medical school before devoting themselves full-time to their PhD studies. After completion of the PhD degree requirements, students then complete their MD degree.

Interested “physician-scientists” should visit the MD/PhD Program’s website (<https://mdphd.johnshopkins.edu/>) for full details on admission requirements and application procedures.
