INVOLUNTARY LEAVE OF ABSENCE

Involuntary Leave of Absence and Condition of Enrollment

November 19, 2018

Introduction

The University is committed to fostering a learning environment that enables students to thrive and participate fully in academic life. There are, however, occasions when a student’s health interferes with their ability to take part in the academic community, and at such times the School provides the opportunity for the student to initiate a leave of absence. For instance, a student’s mental or emotional health, medical condition, or inappropriate behavior or communication may necessitate a leave of absence or placement of conditions on continuing enrollment. The guidelines and procedures described herein are not intended to address such instances, for which long-standing policy exists. Rather, these guidelines and procedures shall apply in those extraordinary circumstances when a student has not or cannot voluntarily address the issues of concern.

Guidelines for Use

1. Involuntary Leave of Absence

In situations when a leave of absence is indicated, the Associate Dean for Student Affairs will encourage the student to initiate a voluntary leave of absence. If the student declines to do so, the Associate Dean may require an involuntary leave of absence. This step will be taken when necessary to protect the safety of the student or other individuals or to preserve the integrity of the University’s learning environment. Such a decision may be based on behavior and/or communication that:

1. Harms or threatens harm to the health or safety of the student or others;
2. Causes or threatens to cause significant damage to the property or resources of the University;
3. Evidence of chronic and/or serious drug or alcohol abuse; and/or
4. Significantly disrupts the functioning of the University community.

2. The Associate Dean may mandate a mental health or physical evaluation of the student. The Associate Dean may also specify conditions under which the student is allowed to remain at the University. Such conditions will be developed in consultation with others charged with oversight of the student’s academic program and the Director of the Student Assistance Program. The Associate Dean will provide written notice to the student when such conditions are mandated.

3. If a leave of absence is indicated, and if the student so agrees, procedures governing voluntary leaves of absence shall apply.

4. When a leave of absence is indicated and the student declines to accept a voluntary leave, the Associate Dean will discuss the implications of an involuntary leave of absence. If the student continues to decline, the Associate Dean will initiate an involuntary leave of absence after consultation with those charged with oversight of the student’s academic program and the Director of the Student Assistance Program. In urgent situations, the Associate Dean may initiate an involuntary leave of absence immediately. Under these circumstances, such consultation will be undertaken promptly thereafter. When an involuntary leave is imposed, the Associate Dean will provide the student with written notification to this effect. This notification will outline the steps required for re-entry into the academic program and also note other pertinent information regarding the student’s status while on leave.

Re-Entry

A student seeking re-entry to the curriculum after a voluntary or involuntary leave as described under this policy will undergo a “fitness for return” evaluation by the Student Assistance Program and/or the appropriate health service (University or Occupational Health Services). Upon re-entry, the Associate Dean may impose conditions under which the student will be allowed to remain at the University (as described in Section III B). The Associate Dean will provide written notice to the student when such conditions are instituted.

Confidentiality

All records related to student leaves of absence and conditions placed on continuing enrollment will be maintained in accordance with applicable law and policy.
