

ANTHROPOLOGY, MINOR

Anthropology Minor Requirements

A minor in anthropology is available to undergraduate students in any major. Minors must receive a grade of C or better in all courses applying towards the minor requirements and all courses for the minor must be taken for a letter grade (no satisfactory/unsatisfactory grading). One cross-listed course taught outside the Anthropology Department may apply towards the minor; all other courses must be taken in the department. Only one course taken at another institution that is not directly equivalent to a JHU course may apply towards the minor and this course requires permission of the Director of Undergraduate Studies to apply. If one of these is accepted, the student may not take a cross-listed course.
