

BIOETHICS, MINOR

Bioethics Minor Requirements

The practice of medicine, the development of public health policies, and advances in the biomedical sciences raise fundamental moral and philosophical issues. The bioethics program is designed to provide students with an understanding of these issues, and the background and the conceptual tools to think about them clearly. The program is a collaboration between the Johns Hopkins Berman Institute of Bioethics and the Department of Philosophy, and draws on the resources of both.

Code	Title	Credits
AS.150.219	Introduction to Bioethics	3
AS.150.220	Introduction to Moral Philosophy	3
Select one of the following:		6-8
AS.020.151 & AS.020.152	General Biology I and General Biology II
