

APPLIED BIOMEDICAL ENGINEERING, POST- MASTER'S CERTIFICATE

Admission Requirements

Applicants who have already completed a master's degree in a closely related technical discipline are eligible to apply for the Post-Master's Certificate in Applied Biomedical Engineering.

Program Requirements

Five courses must be completed within five years. At least four of the five courses must be from the Applied Biomedical Engineering (585.xxx) program (<https://e-catalogue.jhu.edu/engineering/engineering-professionals/applied-biomedical-engineering/#coursestext>), and at least two of the courses must be at the 700-level. Students are allowed to take one elective course outside of the Applied Biomedical Engineering program. Courses from the full-time program and/or medical school (580.xxx) may be substituted. Only grades of B- and above may count toward the post-master's certificate. Focus areas are not available for students pursuing certificates. All course selections outside of the Applied Biomedical Engineering program are subject to advisor approval.
