

APPLIED PHYSICS, POST-MASTER'S CERTIFICATE

Admission Requirements

Applicants who have already completed a master's degree in a closely related technical discipline are eligible to apply for the Post-Master's Certificate in Applied Physics.

Program Requirements

Five courses must be completed within five years. At least four of the five courses must be from the Applied Physics program (EN.615.xxx), and at least two of the courses must be at the 700-level. Students are allowed to take one elective (at the 700-level) outside of the Applied Physics program with advisor approval. Only grades of B- or above can count toward the post-master's certificate. All course selections outside of the Applied Physics program are subject to advisor approval.
