

MPH/MBA

About

The Bloomberg School of Public Health and the Carey Business School of Johns Hopkins University (<https://carey.jhu.edu/programs/dual-degrees/master-public-health-mba/>) offer the Master's of Public Health and Master's of Business Administration (MPH/MBA) dual degree program.

The MPH/MBA provides experienced professionals with the knowledge and skills to be successful leaders in health-related organizations.

Students pursue an integrated curriculum with both public health and business courses. They are trained in population-based health, strategic planning, health economics and more. The program requires 64 MPH credits and 63 MBA credits for a minimum of 127 total credits to graduate.

Students complete the dual degree program in nine terms (two years). Tuition per term is based on the full-time rate at the Bloomberg School.

How to Apply

Requirements (<https://e-catalogue.jhu.edu/public-health/departments/master-public-health/#requirements>) and deadlines are the same as the full-time MPH program. *Please note: all MPH/MBA applicants must submit a GRE or GMAT score (including applicants who hold an advanced degree).*

Applicants submit only one application for the MPH/MBA through the Bloomberg School (<https://publichealth.jhu.edu/offices-and-services/office-of-admissions-services/how-to-apply/>). Applications are processed through SOPHAS, and the admissions committees of both schools review applications independently.

Additional Course Requirements

While the dual degree program follows the same requirements as the full-time standalone MPH program (<https://e-catalogue.jhu.edu/public-health/departments/master-public-health/#requirements>), the following additional course requirements are required for MPH completion:

Code	Title	Credits
